**Keystone Concrete Placement** and **Keystone Structural Concrete, Ltd.** are full service concrete construction companies with considerable knowledge and experience in the construction of commercial, industrial, institutional facilities; and multi-family, custom home, and tract residential markets. Our specialties include slabs on grade, tilt wall panels, elevated slab on metal decks, elevated formed decks, post-tensioned slabs, and concrete paving.

Keystone has a proven track record of quality, cost effective projects. We owe this record to our commitment to the team concept of project management. We work closely with Builders, Contractors, Architects, Engineers, and Owners, because we feel that communication is the key element in the success of a construction project. The free flow of detailed information between all parties is essential to that goal.

Let us put our knowledge, experience and commitment to work for you.

Call 713-983-8002 or visit us at [www.keystoneconcrete.com](http://www.keystoneconcrete.com)

The Top Contractor survey aims to identify the general contractors and construction management firms that are most active in the state. We sent surveys to members of industry associations, companies that participated previously and contacts gathered from other resources. Respondents were required to certify that the data they submitted was accurate. Here, we highlight the companies that are handling the most construction work in different categories.
